Cable cutter VDE „HUPtriCut“

- for cutting copper/aluminium cables, fine wire, multiple-core and solid copper
- Chrome vanadium steel, dip-insulated handles
- insulating function in upper head area
- Cable measuring function thanks to the 180 degree crossover of the legs
- not for solid conductors

Art. 211225 (Art. 211223)

- Data, telephone and control cable, maximum \varnothing 8 mm (\varnothing 12 mm)
- Cu single wire, maximum 16 mm² (16 mm²)
- Cu fine wire, maximum 16 mm² (35 mm²)
- Cu multi-wire, maximum 16 mm² (25 mm²)
- Al single wire, maximum 16 mm² (25 mm²)
- Al multi-wire, maximum \varnothing 8 mm = 16 mm² (25 mm²)

Replaces entire open wrench set!
Thanks to the parallel jaws,
screw edges are not damaged!

Pliers wrench VDE

- Stepless gripping of all wrench widths thanks to the parallel jaws
- Easy tightening and releasing of screw connections
- Weight-reduced for very light working that is gentle on the joints
- Secure setting of the gripping jaws prevents the joint slipping through
- Gentle on surfaces thanks to the smooth, polished gripping surfaces
- 10-fold manual force amplification for very high clamping force
- With comfortable single-hand adjustment pushbutton
- With finger clamp protection for safe working
- Chrome-vanadium tool steel ensures high durability and a long product life
- Individually tested acc. to DIN EN IEC 60900 for working safely on live parts

PLIERS AND WRENCH IN ONE

Gripping | Holding | Pressing | Bending workpieces

These 3 pliers wrenches are new in our portfolio for 2022. The VDE pliers wrench (art. 211224) and the pliers wrench from the basic program (art. 210619) are 260 mm long and replace wrench sets from 0 to 50 mm. The third model is the smaller and even more handy variant of the basic pliers wrench (art. 210615); it is 180 mm long and makes wrench sets of up to 36 mm.

Versatile, flexible, safe, light and gentle on the joints – make things easy and profit from the many benefits of our new pliers wrench!

Pliers wrench

- Stepless gripping of all wrench widths thanks to the parallel jaws
- Easy tightening and releasing of screw connections
- Weight-reduced for very light working that is gentle on the joints
- Secure setting of the gripping jaws prevents the joint slipping through
- Gentle on surfaces thanks to the smooth, polished gripping surfaces
- 10-fold manual force amplification for very high clamping force
- With comfortable single-hand adjustment pushbutton
- With finger clamp protection for safe working
- Chrome-vanadium tool steel ensures high durability and a long product life
- Handles in black/green soft dip insulated

Hand cable cutters Ø 34 mm

- Designed for cutting copper and aluminium cables according to DIN EN 60228
- Equipped with ratchet gear transmission
- Provides optimal force transmission
- Enables one-handed operation through optimal lever ratio and step-by-step cutting up to Ø 34 mm
- Release mechanism available in every cutting position

Material:

- All parts made from high-strength special steel, with hardened or tempered cutting edges and stressed components
- Burnished surfaces
- Ergonomically shaped soft handles
- Colour: black/green

Cutting range:

- Cables and insulated conductors according to DIN EN 60228
- Multi-stranded cables (Class 2; Class 5) copper up to 300 mm² (sector-shaped, fine-stranded, communication/data)
- Multi-stranded cables (Class 2; Class 5) aluminium up to 380 mm² (sector-shaped, fine-stranded, communication/data)
- Not suitable for steel or ACSR cables
- Clean the ratchet mechanism after use

Dimensions:

Length: approx. 260 mm | Width: approx. 100 mm | Depth: approx. 36 mm | Weight: approx. 600 g

haupa.com

The new hand cable cutters, models 200089-1 and 200183-1, featuring ratchet gear transmission, are designed for cutting copper and aluminium cables according to DIN EN 60228, with diameters of up to 34 mm and 62 mm respectively. With their carefully calibrated lever ratio, these hand cable cutters ensure optimal force transmission, allowing for effortless step-by-step cutting with just one hand. These cable cutters are equipped with ergonomically shaped soft handles, providing a comfortable grip during operation. They also feature a release mechanism that can be used in any cutting position. All parts of the cutters are made from high-strength special steel. The cutting edges and other stressed components are either tempered or hardened, while the surfaces are treated with a burnished finish. **Our new hand cable cutters are suitable for fine-stranded conductors too!**

Hand cable cutters Ø 62 mm

- Designed for cutting copper and aluminium cables according to DIN EN 60228
- Equipped with ratchet gear transmission
- Provides optimal force transmission
- Enables one-handed operation through optimal lever ratio and step-by-step cutting up to Ø 62 mm
- Release mechanism available in every cutting position

BATTERY-HYDRAULIC CABLE CUTTER IN PROVEN QUALITY WITH AN EVEN LARGER CUTTING RANGE

The new battery-hydraulic cable cutter "AS6-S65" cuts copper and aluminium cables (except ACSR and SWA cables) with a diameter of up to 65 mm.

Unique to HAUPAs cable cutter "AS6-S65" (Art. no. 216423-1) is the large cutting range of up to 65 mm. The durable design with perfect, force-saving centre of gravity and the light weight of 4.5 kg make this tool ideal for longer projects. The high-performance cable cutter can be positioned reliably on the cable even in tight spaces. One battery charge of the 2 Ah battery supplied in the set allows up to 50 cutting processes depending on the cable. The forward and reverse button with safety lever allows the cuts to be controlled at any time, thereby ensuring safe work.

Battery-hydraulic cable cutter „AS6S-65“

- for copper and aluminium cable, multi wire
- diameter up to 65 mm

Scope of delivery:

1 cutting tool, 1 charger, 1 battery, 1 carrying strap, in a system case.

- Precise cut with little conductor deformation
- Cutting force kN: 60
- Work pressure in bar: 700
- Cutting width Ø: 65
- Cutting head 180° rotating
- Battery charging time in minutes: 30
- Battery type: Li-Ion, 18 V, 2 Ah
- Compatible with battery Art. No. 215523 and charger Art. No. 215527
- Compatible with MAKITA 18 V charging equipment
- LED front lamp for work area illumination

Smart Battery powered crimping tool universal „US-6M“

Sensor

Hydraulics for interchangeable pressing tools, crimping head can be rotated by 180°, with fast opening, manual return flow after perfect pressure.

- **for 6 different interchangeable heads**
(item no. 216761, item no. 216762, item no. 216665-U, item no. 216763, item no. 216764, item no. 216666-U)
- Heads can be changed easily
- Can be locked using 2 extractable pins
- With the new HAUPA battery item no. 215523 and charger item no. 215527
- Pressing load kN: 60
- Working pressure in bar: 700

With the different colours of the sensor LED, it shows whether the pressing has been completed successfully or which errors have occurred:

- Light is green: Pressing completed as standard, motor stopped.
- Light is orange: Battery voltage not sufficient
- Light is red: Pressing interrupted before completed

The device also has 1 white LED designed to illuminate the working area.

HAUPA batteries are compatible with the MAKITA charging technology and can be used in all 18 V Li-ion systems.

Smart Battery powered crimping tool „S0-6“

Hydraulic for interchangeable dies, crimping head 180° swivelling, Head can be opened, manual return flow after perfect pressure.

Extent of supply:

- 1 crimping tool,
- 1 charger,
- 1 battery,
- 1 strap,
- in SysCon stacking box „SysCon M“ art. 220372 without inserts.

Technical data:

- Pressing force in kN: 60 kN
- Working pressure in bar: 700
- Head can be opened yes
- Opening/ Hub: 17 mm
- Pressing width: slim
- Pressing time, battery-operated in seconds: ca. 5
- Battery charging time in minutes: 30
- Battery type: Li-Ion, 18 V, 2 Ah
- Cable lugs: standard Cu 6-300 • DIN Cu 6-300 • DIN Al 16-300
- Connectors: Cu 6-300 • DIN Cu 6-300 • DIN Al 16-300
- Dimensions: 383 x 75 mm
- Weight in kg: 3,0
- Weight of set in kg: 7,1

HAUPA batteries are compatible with the MAKITA charging technology and can be used in all 18 V Li-ion systems.

Cable pulling device HAUPA PullTec

with special plastic coating, M5 thread and probe, in durable plastic housing, colour: black

„Single Composite“

 4,0 mm, green

- Breaking load: 300 kg

The advantages of the HAUPA PullTec at a glance:

- Material: Coated with a special plastic
- Slides very well and is highly elastic
- Low friction
- Does not break or bend
- M5 thread
- With probe
- In durable plastic housing

Decoiler 1200

The front and the rear sides are made of anodized aluminum with antiskid ribs. For the left and the right side, sink steel with powder coating has been used. Because of this construction, the decoilers are strong, flexible to use, and resistant against heavy circumstances. The roles have bearings and a sliding axis, which make it easy to change the position of the roles without any special tools. Four antiskid buffers ensure that vibrations are subdued and floors remain intact.

Technical data:

Length: 610 mm

Width: 570 mm

Height: 115 mm

Drum/width: 560 mm

Drum-Ø: 1200 mm

HUlightStripe

Ideal for illuminating building sites, especially building shells! The LED light strip can be simply suspended from the ceiling, e.g. with cable ties, and illuminates the work area evenly. Durable and unbreakable, and can be used without any annoying tripods. Can be stowed away as tidily and compact as a cable drum.

Adjustable cable clip with adhesive socket

Material: Polyamide 6.6, halogen-free, UL94V-2, for fast and secure attachment of the HUlightStripes, all 0.5 m. With high-quality 3M adhesive pad (adhesive capacity 2 kg on smooth and grease-free surfaces), easy to open and close, reusable thanks to screw hole for drill attachment, colour: natural and black, dimensions: 90 x 12 mm, contents: 100 units

Fitter's hammer with 3-component handle

Vibration-free fitter's hammer with 3-component handle.

The hammer head with the forged safety collar according to DIN 1041 and rubber protection sheath is secured mechanically in the handle with a heavy steel wedge. The high-safety handle comprises 3 components that are permanently connected to one another! The inner core is made of an aluminium alloy. A polyamide plastic (A2800) that is ultra-resistant to oils and solvents and also the non-slip rubber handle are moulded around this.

Benefits:

- Shock-absorbing, therefore gentle on the joints
- High-safety handle is indestructible
- The handle is permanently connected to the hammer head
- Non-slip handle allows ergonomic and safe work
- Highest possible level of safety

Plastic corrugated tube cutter

For cutting plastic corrugated protection tubes. Body made of magnesium pressure cast, very lightweight and durable.

Two cutting systems:

- Cross-section with two four-blade knives. System with a service life that is four times longer, thanks to four-way adjustment of the blade of 90°. Tube guidance system for perfect positioning of the tube when cutting; blades lie protected in the body, which prevents damage of the blades and injury to the user.
- Longitudinal cut with one four-blade knife. System with a service life that is four times longer, thanks to four-way adjustment of the blade of 90°. Blades lie protected in the body, which prevents damage of the blades and injury to the user. Tube contact surface for better guidance of the tube.
